The Indiana Geological and Water Survey is seeking a

**Part-time Programmer and Web Designer**

**Part-time IT Programmer and Web Designer**
Indiana Geological and Water Survey
**Position Rank: Temporary Position Employee (Hourly)**
**Salary: $13.53-15.67/hour depending on qualifications**
Part-time position 29 hours/week

**Work period: Summer**
**Openings: 1 position**
**IU Jobs Position Number: 00001925**

The successful candidates will work approximately 29 hours per week, assisting the Indiana Geological and Water Survey’s Hydrogeologists, Web Developer, and Database Administrator by designing and developing web applications intended to increase the utility of climate and hydrologic data from the Indiana Water Balance Network (http://iwbn.indiana.edu/). The resulting web-based decision support tools are intended to serve the needs of water-resource managers, farmers, the general public and professional earth scientists.

The successful candidate is to be skilled with front-end web technologies (HTML, CSS, JavaScript, and JQuery/AngularJS), while also having familiarity with SQL databases and at least one back-end programming language (preferably Python).

Please contact the project director for the Indiana Water Balance Network, Shawn Naylor (snaylor@indiana.edu), for more information. Apply online at https://iujobs.peopleadmin.com/postings/291693

The deadline for application is midnight on Friday, March 20, 2020. Starting date is negotiable.
